University of Texas Classification

Diabetic foot · grade 0 to 3 (depth) + stage A to D (infection, ischemia)

0	**Epithelialized wound**	(grade)
1	**Superficial wound**	(grade)
2	**Wound to tendon or capsule**	(grade)
3	**Wound to bone or joint**	(grade)
A	**No infection or ischemia**	(stage)
B	**Infection**	(stage)
C	**Ischemia**	(stage)
D	**Infection and ischemia**	(stage)

Grade	Stage	Example
Depth of the wound: 0 to 3	Infection and ischemia: A to D	2-B = to tendon or capsule, with infection

Written as grade + stage · a higher grade and a later stage (A to D) mean a worse outcome in a validation study
